

Ghaziabad

Techniques adopted to reduce the difference between the actual pendency of the cases and those shown on the NJDG to zero, provided by Shri Narendra Kumar Johari as District Judge, Ghaziabad.

1. A physical verification of every courts will ensure the actual differences in a particular court.
2. In the courts where the difference is found a notice be sent to the court concern with the direction that differences be removed on same day by 4.00 P.M. otherwise the reason be explained.
3. In spite of step no. 2, the courts where difference is found frequently, the discussion with Presiding Officer and District Judge will sensitize to the P.O. concern and exact reason of the difference may come in light.
4. In spite of step no. 3, if again difference is found, then in that case, a staff from Computer Section be provided temporarily for help and proper training to the staff of court concern.
5. A regular training schedule be fixed once in a week after court hours with Nodal Officer Computer and System Officer for ministerial staff, so that if the staff is facing any technical problem, then in that case problem be resolved.
6. In every monthly meeting with Judicial Officers, the target of zero difference must be discussed.

Jalaun at Orai

Techniques adopted to reduce the difference between the actual pendency of the cases and those shown on the NJDG to zero, provided by Shri Pradeep Kumar Consul as District Judge, Jalaun at Orai.

1. In order to achieve the aforesaid result it was ensured by the undersigned that the Clerks working in all the courts should devote one hour everyday in Computer Room after Court's hours whereby the pending cases could be matched in such a way, which were decided earlier and are not forwarded in the diary due to any reason, those cases to be physically verified and maintained on the National Judicial Data Grid, so that there would be no possibility of discrepancy.
2. It has been expected from all the Presiding Officers in the meeting that they should sit time to time in the Computer Room to enquire about computer related problems at Headquarter and all the three Outline Courts to ensure the uninterrupted power supply with the cooperation of the employee of the B.S.N.L. and Electricity Department U.P.
3. Under the direction of the Hon'ble Committee, it was ensured by me that the facility of the generator and inverter in the above Computer Rooms should

function smoothly.

4. By regular meeting and establishing coordination with the Nodal Officer (Computer Section) and with the help of all the Class-III employees of vacant Courts and competent employees in computer works, it was also ensured by me that all the physical verification of the documents should be done, so that there would be no discrepancy between the number of pending cases and NJDG.

Note:- The above techniques provided by Shri Pradeep Kumar Consul as District Judge, Jalaun at Orai was in hindi and has been translated into english by the office.
